To: All PPG Sealant Resellers and Distributors

This letter confirms PPG policy concerning the repackaging of its aerospace sealants. Repackaging of PPG aerospace sealants is prohibited. PPG aerospace sealants must only be packaged by PPG at PPG's manufacturing facilities and Application Support Centers. This policy includes, but is not limited to, all "PR" and "PS" branded sealants, aerospace sealants sold under the PPG or PRC DeSoto label, and any other aerospace sealants manufactured by PPG.

PPG is committed to ensuring that all customers receive product that meets their requirements. As part of its aerospace sealant product development and packaging quality control program, PPG maintains strict design and qualification standards for all of its sealant packaging containers. PPG also carefully inspects its packaging containers to ensure that they meet PPG quality standards. For these reasons, PPG quality certifications apply only to product that is manufactured and packaged with PPG oversight. Additionally, PPG only warrants sealant products that it packaged. PPG's warranty is void upon re-packaging of its sealant products for resale.

This policy must be strictly followed. Noncompliance may result in immediate severance of PPG business relationships.
