

TECHNICAL DATA

COCKPIT WINDOWS

717, DC-9, MD-80, MD-90 Airplanes

717

™ & © The Boeing Company. Used under license.

PPG Aerospace – Transparencies is the leading and most-experienced source of replacement cockpit windshields and windows for these airplanes. Operators of these airplanes know that PPG transparencies have the industry’s best service life, as shown in PPG studies of in-service reliability.

New or Exchange

For operators of 717, DC-9, MD-80 and MD-90 airplanes, PPG provides options to meet transparency replacement needs.

Operators can buy new replacement windshields and side cockpit windows from PPG and enjoy the convenience and time savings of buying directly from a single source.

PPG’s exchange program for No. 1 windshields and No. 2 clearview windows offers cost savings over new parts. Operators return a No. 1 windshield or No. 2 clearview window to PPG and receive a new or rebuilt replacement part from stock, affording the most efficient turn times.

Overhaul and Repair

In addition, PPG is able to overhaul and repair the No. 2 clearview framed window assembly.

Stocks Worldwide

With inventories of cockpit windows maintained worldwide, PPG is able to service customers from global stocking locations.

Main Windshields

Features	Benefits
Stainless Steel Z-Retainer	<ul style="list-style-type: none"> • Permanent physical barrier protects sealant against moisture ingress
NESA® Anti-ice and Antifog Heating Systems	<ul style="list-style-type: none"> • Full coverage heating • Better optics
Urethane Interlayer	<ul style="list-style-type: none"> • Provides maximum adhesion for resistance to delamination and extends service life • Elasticity at low temperatures reduces potential for delamination and cold chipping

Clearview, Aft and Eyebrow Windows

Features	Benefits
Stretched-Acrylic Plies	<ul style="list-style-type: none"> • Lightweight • Repairable • Low cost
