TECHNICAL DATA
AC-182 Metal Conditioner & Rust Remover

Description
Eldorado AC-182 is designed for use to prepare steel and aluminum surfaces for painting, to descale systems that may be harmed by muriatic acid, and to remove rust from steel under conditions where fumes from muriatic acid would cause be harmful to the surroundings.

Material Properties
- pH: 1-2
- Clear, homogeneous liquid.
- Contains phosphoric acid.
- Approved by or conforms to: MIL-C-10578D, Type II.

Use
Add one part AC-182 to three parts water by volume. When diluting, use acid resistant steel, earthenware crocks, or other suitable mixing vessels. Always add the acid to the water.

Remove heavy rust by wire brush and heavy grease with a grease solvent before applying compound. Applied diluted AC-182 by brush, rag, or sponge. Allow the compound to remain on the metal surface about 30 seconds. Wipe off residue first with damp rag and then dry with rags. After metal surface has been wiped dry, no more than a light film of grayish-white coating shall remain before application of rust.

Note: AC-182 contains a strong acid. Protect hands, face, and eyes by wearing rubber gloves, apron, and face shield.

Health Precautions
This product is safe to use and apply when recommended precautions are followed. Before using this product, read and understand the Material Safety Data Sheet (MSDS), which provides information on health, physical and environmental hazards, handling precautions and first aid recommendations. An MSDS is available on request. Avoid overexposure. Obtain medical care in case of extreme overexposure.

For industrial use only. Keep away from children.
